Small Cooking Starter Kit 
with Electric Stove

Make Fudge, Toffee, Caramel Pralines, and much more!

Cooks batches of about 35 lbs, depending on product

Electric Stoves can be used with both copper and stainless steel kettles although Copper kettles continue to be the most popular choice. Requires use of 20” /50cm diameter kettle.

**ElectroStove-20**, is manufactured to strict standards and carries ETL Certification to UL Electric and NSF Sanitation standards.

*NSF requires use of stainless steel kettle
