

Terminal Block Solutions

ABB SNK series

Screw Clamp

Push-In Spring

ECD provides a complete range of Terminal Blocks to offer a safe, easy and fast solution for secure and reliable connections. The Screw Clamp terminal offers an **anti-release system** that eliminates the need to re-tighten connections. Assembly time with the Push-In Spring terminals can be **50% faster** than traditional screw technology. Other features include DIN rail mounting, global certifications, **20% larger** flat marking surfaces as well as a comprehensive line of accessories. Terminal blocks reduce wiring time and minimize troubleshooting.

Features & Benefits

- Complete product range
 - **Screw Clamp Terminals**
 - **Push-In Spring Terminals**
 - Wire sizes 24 AWG to 2 AWG
 - Feed-through Blocks
 - Ground Blocks
 - Multi-connection blocks
 - Blocks with fuse holders
- Compact designs
- DIN rail mounting
- **IP20 (Touch Safe)** versions
- Large flat marking surfaces

Wire & Terminal Marking Services

- Blank Markers
- Pre-Printed Markers
- **Custom Markers**
- Custom Labels
- Engraving
- Shrink Tubing

Value Added Services

- Custom Terminal Markers
- **Custom Rail Assemblies**
- Cord Sets
- Engraving
