IDEC Smart**AXIS** Series FT1A Controller

IDEC's FT1A SmartAXIS controllers were designed with a focus to provide users with unique features and advanced functions for applications that require limited I/O. FT1A SmartAXIS controllers are available in 12, 14, 24, 40, 48, I/O CPUs and 3.8" HMI+PLC 65K color TFT resistive or 3.7" monochrome touchscreens.

The 3.8" HMI+PLC FT1A Touch is packed in a compact package but equipped with abundant features. It's a genius product for small machines that requires human interface. The integrated 12 or 14 I/O PLC functions built into the 3.8" touchscreen utilize all the PLCs functions.

The FT1A 12, 14, 24, 40 and 48 I/O controllers are equipped with features that you can't find in any other competitors PLCs. 10A relay contacts, integrated analog inputs/outputs, embedded smart LCD/keypad, embedded real-time clock, embedded RJ45 Ethernet port for remote connectivity and Modbus TCP communication, SD memory slot for data logging and many other features at a very competitive price from ECD.

- All-in-one PLC w/ screen
- 12, 14, 24, 40, 48 I/O CPUs
- Unique features
- With or w/o LCD or Touchscreens
- Advance functions
